BY MARQUIS DE CASTELLANE.

Paris, October 18.—How England will help France by her land forces when

the war breaks out between this coun-

try and Germany is now clearly de-

Dunkirk for 100,000 men. This am-

munition was quietly sent over and kept in readiness. Of course, the Ger-

man Emperor is aware of this secret

preparation. It was determined upon when the German plan of campaign

against France became known to the English and French general staffs.

the other through Belgium. England is to meet the invasion of France through Belgium with 100,000 men.

She will very likely be assisted by the Belgian army, and, if so, there

will be a large force to oppose the army of invasion from the north, for

the Belgian army numbers 340,000

These are obviously and solely for military purposes, for the country

through which they pass is so poor that it is known as "German Siberia."

There is no traffic to justify the existence of these railroads. Belgian

neutrality is guaranteed by Russia, Austria, Germany and France. But we

know that guarantees do not hold good

in time of war.

The German Emperor was very un-

comfortable when he learned that England had shipped ammunition to

the North of France for an army of 100,000 who will fight in Belgium. Visions of Wellington, who won Waterloo with only 70,000, came up before him. But the Emperor believes he has

found wherewith to reply.

He who has doubled the fighting force of his navy by digging the Kiel Canal; who has reformed the military

code; who has brought about a civil

research in the University of Berlin who has promoted agriculture and

commerce; who is a patron of science art and literature is not frightened by

100,000 fighting men. So say our German neighbors who affectionately call the Emperor "Touche a Tout," or

has promoted agriculture and

Germany's intention to Invade through Belgium is clear. Strategic lines of railway are built between Trevers, Coblenz and Alx-la-Chappelle.

That plan involves a double in-asion; one from the Eastern frontier,

England has stored ammunition near

termined.

## U. S. SYNDICATE BACKS RESEARCH WORK IN EAST

[Special Cable to The Times-Dispatch.] London, October 18 .- William H Backler, the archaelogist, said to-day that a small private syndicate, of which he is a leading member, had done a great deal of valuable archaeological excavation work in Asia Minor this

"We made no sensational discoveries this time, like finding the wonderful Temple of Diana in 1912," he said but we excavated thoroughly the district around the temple and found numerous interesting articles, mostly incient jewelry and fragments of pot-

"Our best discovery was a wonderful collection of jewelry, which evident-ly had been sewn in a burial dress. It consisted of about twenty-five pleces, all of intricate and beautiful designs. It is too early yet to talk of the absolute value of the discoveries, as we hadn't a pottery expert in the party. When our reports have filtered cround the archaeologists of America three years, then we are bound to find one one who can tell us exactly what have done.

"So far our work points to the fact that eventually we shall establish that the civilization existing in Greece and the civilization existing in Greece and Egypt will- be found reproduced in most all other countries bordering on the Mediterranean. I am looking for-ward to the day when Tunis and Mo-rocco shall be sufficiently civilized to enable our quest to be pursued there also.

saribers, but we are satisfied with our work, and intend to continue it while funds last. Nevertheless, it is impos-sible to avoid envying those archaeo-

logists whose governments make a grant for research work.

"I had the good fortune this year to find some valuable coins, going back to the earliest days of coinage. These I have given to the British Museum or the murpose of helping to complete. for the purpose of helping to complete its collection. My theory is that all finds of this kind ought to go to great museums which are open to all, in-stend of being hoarded in private col-lections."

# Diamond Jewelry

The Highest Expression of the Jewelers' Art.

The selection of an article in Diamonds set in gold or platinum is not a frequent occurrence to many.

Therefore, it should be made not only with deliberation, but should be selected from displays which are the most extensive and exhaustive, so as to meet your special ideas

Each piece of Diamond Jewelry shown by us is mounted in our own workrooms. Each stone is specially selected before mounted, and every article embodies perfection of quality and artistic worth.

These details of discriminating care have made possible the ever increasing demand for our goods.

We should be glad to have you call and inspect these beautiful articles and allow us to describe in detail what we have to meet your special requirements.

stated authoritatively.

JUDGE HARRISON INDORSED.

Clarke and Warren Bar Associations
I rge Elevation to Supreme Bench.

[Special to The Times-Dispatch.]
Winchester, Va., October 18.—The bar associations of Clarke and Warren Counties, meeting in Berryville and Front Royal, respectively, have adopted unanimously resolutions indorsing Circuit Judge Thomas W. Harrison, of Winchester, for election by the General Assembly as a member of the Supreme Court of Appeals of Virginia, to succeed Judge John A. Buchanan, of the Southwest, who will shortly retire. Local representatives in the Legislature are urged in the resolutions to exert every proper effort to secure the election of Judge Harrison.

# Women's Fall Suits

WITTY RICHEPIN LIKES
THE OLD MAIDS CRY

[Special Cable to The Times-Dispatch.]

Laris, October 18.—Jean Richepin, the playwright, has given French girls important advice on marriage. At his country home the other day he was chatting with a bevy of pretty girls, ene of whom admitted that she had just rejected an offer of marriage.

As a reason for her action he pleaded the lack of good looks on the part of the gentleman.

"Take care, Madesmoiselle," said the Academician, "that you do not show yourself too particular."

"Why?" chorused the girls.

"When a girl is only twenty and a hashand is propsed for her, she always asks: "What is he like?" When she is thirty she asks: "What is he?"
